

COMMON SIGNS OF HIGH BLOOD SUGAR

(Hyperglycemia)

Thirsty all the time

Blurry vision

Need to urinate often

Weak or tired

Dry skin

Often hungry

**A high blood sugar (glucose) problem can often start slowly.
If not treated, it can cause a health emergency!**

Check your blood sugar often to prevent high blood sugar problems.

If your blood sugar is higher than your goal for 3 days and you don't know why, call your doctor right away.
